MIDNIGHT INVASION
POLICE CELEBRATE FESTIVAL OF DEATH ON SOUTH UNIVERSITY

Last night in 90 minutes, the Ann Arbor Police Department staged and successfully completed a planned military maneuver on South University, occupying the street and paralyzing the right TO BE. Being on South University, or the half block of South Forest, meant harassment, intimidation, shoving, and arbitrary arrest.

At 11:25pm the invasion began. One Ann Arbor police car abruptly squealed to a stop, and emptied out six riot dressed pigs, bouncing like football players, ten minutes late for the game. Marching two abreast, pretending to "clear" the loosely scattered sidewalk crowd, they goose-stepped to the rhythm of 3 ft. clubs smacking against their palms. They verbally agitated people to react hostilely, and, and jabbed one brother in the ribs (black pig John Hall) saying "You got troubles man?" "If you do, come to me, understand?" Three brothers walking arms over shoulders and being stoned free, were chased from Millers Ice Cream store and down South Forest. Their refusing to act paranoid must have the pigs.

From dusk on, the street buzzed with energy. People digging each other and moving on. People being free. People being happy, and hanging around like after rock concerts. Everyone was righteously street stoned. At no time was the sidewalk or street blocked. There were no disturbances. There were no illegal acts--none. The decision to incite a riot with the National Guard and Sheriff Harvey waiting just out of town, acts 2 and 3 was saying "To be free constitutes a disorder, a lawless situation. If necessary we will beat our Readers Digest morality into you. If you persist on acting and relating as human beings rather than consumers on South University; than through illegal acts, we (the pigs) will force you to switch rolls, becoming potential threats to the gestapo situations we create. Go home freak. Watch T.V. Law and order, alone, determine morality. You being free, by Honky law, is immoral. We are here protecting morality. Our morality made us, 6% of the world: population, owning 60% of the world's resources. To fuck with that balance is to fuck with America, and we protect America by any means necessary."

In one hour at the cost of \$45.00 to the taxpayers (\$7.50 per hour X's 6 pigs) the street was desolate, but for small groups of frightened people and the Whistle Stop congregation. The pigs seeing the opportunity, hoofed to the Whistle Stop, pushed and jabbed their way in, and busted Jackie for "obscene language". Black pig John Hall knocked down Grant Fisher with his club and busted him, "Your going too-for interfering". Jackie and Grant were pushed out. Some people followed until Corporal Johnson oinked, "Anybody who comes this way gets it too".

Between 12:15 and 2:00p.m. the pigs swept up and down the half block of South Forest making at least one more arbitrary arrest. Another sister, Audrey, was busted when two pigs realized she was taking witnesses names. Pig cars raced up and down South Forest, and eventually stationed two pigs, Hoy, badge 86 and Ritter, badge 31, in the Standard gas station. The Military Industrial Complex personified.

Dig it man. When you hear a brother rapping naive shit like, "I just can't believe it." "There must be some switch in tactics." "They can't do that", or "What's going on man?" Tell him America is going on: the planet is losing. Tell him Blacks live with it every fucking day. Tell him if the police don't protect the people, then the people will protect the people, from the police. TAKE UP MOTHER FUCKERS!!!!

Last night, Act I, inciting the people, was a deliberate attempt to create Act II- overreaction by Hog Harvey and the National Guard, and Act III- a police state in Ann Arbor. Now either you start warning people of Act IV-- total Fascist control, or get seated for Act I of a play entitled, "The Total Destruction of America." POWER TO THE PEOPLE!
